

Irma District

Irma District is one of the best mixed farming districts in the West. Good soil, good water, good grass, good railroad facilities and good people. Boost for your district. Plenty of good farms waiting for development.

Irma Items.

H.W. Love spent Monday in Edmonton.

A. Lewis was a visitor in Irma last Wednesday.

R. Irwin has moved in the house formerly occupied by J. W. Wyatt on Second Ave.

The graders are making a good job with the improvements on 2nd Avenue.

Word has been received that Pte. W. Clark had arrived at Halifax and is expected home any day.

Capt. Geo. Hudson, M.P.P. spent Wednesday in Irma, renewing acquaintances.

The UFWA met at the home of Mrs. J.G. Clark yesterday, and entertained the members from Wainwright.

Miss Edith Bowen, of Wainwright has accepted a position with C. A. Bassett as telephone operator.

C.H. Peterson, formerly of the U.G.G. elevator, left Wednesday evening for Lavo, where he will take charge of their elevator there.

Mrs. B. Cleland was taken to Edmonton last Friday night. Mrs. Cleland was threatened with pneumonia and up to Wednesday night no word had been received from Mr. Cleland who accompanied her.

C.G. Reinhorn formerly with the 11th Field Ambulance, spent Wednesday in Irma trying to explain the advantages of the purchasing of War Saving Stamps by the public.

The picnic held by the Choral society was a big success. About 70 members and their friends were present. Dinner was served at the Battle River, after which the party motored thru the Buffalo park, and from reports many buffalo were seen.

The Repatriation Committee met last Wednesday night and discussed the proposed picnic in honor of the boys from the front. The meeting was adjourned till next Thursday when definite arrangements will be made as to date, program, etc.

Two More Irma Boys From France

Two more of our gallant lads returned this week, Ptes. G.H. White, and Chas. Walker. Both went over with the 202 Sportsman Battalion but were later transferred while overseas, where they saw considerable service. They report a good trip across, and are very glad to be back to Irma, after their many exciting experiences on the firing line.

Times Affected by Strike.

Owing to the strike situation not being settled to the time of going to press, we are unable to guarantee the people of Irma and district their paper for next week. All emergency editions of the Times have been used up and will have to wait till the strike has cleared sufficiently to let express and freight be handled, before the Times will appear again. So if you miss your paper next week blame it onto the strike.

NOTICE

Children under 16 who are competing in the calf feeding contest for the Irma Fair on August 15 must have the care of the calf for two months previous to the fair. It must be a 1919 calf.

The exhibitors must lead the calf into the ring. No entry fee will be charged. The prizes are \$5, \$4, \$3 and \$2 and \$1. J. W. Milburn.

I.O.O.F. Elect Officers.

The following officers were elected by the members of the Irma Lodge I.O.O.F. last Tuesday night. Noble Grand Bro. R. Smallwood. Vice Grand Bro. C.G. Hockin. Sec'y Bro. N.M. Mathison.

Experience teaches a lot of people things that they would rather not know.

Wild Land Tax Act Modified

At the last session of the Provincial Legislature, the Wild Lands Tax Act was amended by legislation introduced by the Minister of Municipal Affairs under whose direction this Act is administered.

One of the outstanding features of these amendments is the widening of the provisions under which exemption from the tax might be secured. As the Act has been in force during the past four years, all cultivation or pasturage of land whereby exemption might be secured, was required to take place during the year previous to that in which the tax was levied. This being the case, the purchaser of land from the Dominion Government or from the Canadian Pacific Railway Company, who made his purchase in the fall of the year, had no opportunity to earn exemption from the Wild Lands Tax in the following year. This was unfair as the purchaser in question had no control of the land during the previous year, and was thus penalized because of a condition of affairs beyond his control. The act as it now stands, provides that exemption may be granted if the cultivation takes place prior to the first day of August of the year in which the tax is levied, or if the land is pastured for two months prior to the first day of July of the year in which the tax is levied. The amount of cultivation, and the number of head of stock pastured, is left as it was; namely, one quarter of land must be cultivated, and there must be stock in the proportion of one head of cattle or horses, or three sheep to every ten acres. The provision in regard to residence exemption also remains the same; namely, a bona fide farmer who is resident on his land is exempt for 640 acres, and such land may be any place within a radius of nine miles from his place of residence.

During past years, the administration of the Wild Lands Tax Act

has been criticized on account of the fact that lands were sometimes assessed under this Act that were really exempt from such tax. Because of the large areas given to each Assessor to cover, this was unavoidable as it was impossible for him to see all of the land in his district, and he had, therefore, to depend for much of his information on hearsay evidence from parties in the community. This led to a good deal of misunderstanding, and many mistakes were made. This condition of affairs, was of course, very unsatisfactory, and provision has been made whereby, commencing with the current year, all land taxed under this Act will be actually seen by the person responsible for the assessment.

In the organized portions of the Province; that is, in the Municipal Districts, this tax will be levied by the Municipal District, and it will be possible for the official levying the taxes for the district, to obtain exact information as to what lands in the district are subject to this tax, and there should be no possibility of land exempt from taxation being taxed, or of land subject to taxation being omitted from the tax roll.

In the unorganized portions of the Province, the staff of outside Assessors employed by the Department has been increased, and each Assessor must see all the land that he assesses; no hearsay evidence will be taken. This will insure a proper assessment in the unorganized territory as well as in the organized areas, and it will do away with the possibility of a man being assessed for land which he is cultivating or on which he has probably made his home for a number of years.

The placing of the Wild Lands Tax Assessment in the hands of the Municipal Districts will also tend to better service in other ways; that is, all taxes on lands in Municipal Districts with the exception of School Taxes in some cases, will now be payable to the, one official; that is to the Secretary Treasurer of the Municipal District. There will only be one Tax Roll, and only one Tax Notice and one Tax Receipt will be necessary. A party who owns land in a Municipal District will not receive any Tax Notices from the Department of Municipal Affairs. He will only receive one Tax Notice from the Secretary Treasurer of the Municipal District in which his land is situated, and this notice will show all taxes payable by him, and a clear receipt from the Secretary Treasurer of the Municipal District will be in evidence that all his taxes have been paid. Where school taxes are still levied by the school district, the land-owner will, of course, receive a Tax Notice from the school district in addition to that from the Municipal District. It is to be hoped that ere long all school taxes will be levied by the Municipality, and that in all Municipal Districts, only one assessment and tax roll will be necessary.

As far as the unorganized portions of the province are concerned; that is, the Improvement Districts, all taxes levied on land by the Provincial Government will be shown on one Tax Notice in place of two or three as in the past, and the receipt of payment will be acknowledged on one tax receipt form, and all such tax notices and tax receipts will give full particulars as to the amount of the different taxes levied against the land.

Irma I. O. O. F.

Will meet Tuesday, June 10 at 7 p.m. sharp for memorial service. Service to be held at the cemetery.

The Strike Continues

We have been able to procure a large shipment of GROCERIES this week and are able to offer the public a fairly well assorted stock to choose from once again.

Child Welfare

Or What Adulthood Should Do For The Child

Next to care of infants comes the care of children in the primary, junior and adolescent stages.

The primary stages extends from infancy to about eight years old, at this stage the child cares for nothing only play. He plays alone and does not want games subject to rules. Girls play with dolls and tea-sets. Boys like to make things such as houses, dams, etc. and keep store play soldier, horse or any games in which he can imitate, and play is God's method of teaching the child how to work. His play is largely imaginative and dramatic and this is so essential to the best development of body, mind, and character.

At this period the child is curious asking How? Why? What? Where? From? There is only one safe rule for the adult to follow, "Do absolutely nothing before the child that he would not have him copy." His memory and retentive in this stage. He tends to personify everything. The first and most definite objects of his knowledge are persons.

Stories of miracles, fairies, elves delight him because they appeal to his love of action and sense of wonder. He lives in a world of make-believe by imitating the actions of his mother, father, uncle, or teacher. He plays soldier, railroad-engine, or horse. He may also be seen imitating the actions of crows, dogs, cats or hens. He is very affectionate at this age and keenly sensitive to the personal attitudes of others.

Songs should be sung and stories told to lead the child to understand what he owes to the farmer, milkman, butcher, baker, smith or any workmen who directly minister to his needs.

We should enrich the child's life by music, literature and art. No child should be refused the spiritual uplift, the joy the intellectual vision that may be received from these subjects.

The child loves to do things right or wrong.

Should we allow him to continue to do wrong? The old way was to stop him doing it by saying Stop! Don't! The new true way is to deal with the child who is doing wrong by changing his centre of interest from wrong to right and keeping him busy. Children love to work in proportion to the amount of joyous interest he takes in it.

As the child grows older in this stage say at seven or eight he begins to distinguish fact from fancy. He recognizes a difference in stories that are just by true. He wants to know if fairy tales are true or whether Santa Claus is real. He cannot reason abstractly yet. We must be firm and consistent in our dealings with him now. Openness and sincerity are demanded in our answers to his questions.

In the stage of later childhood from nine to eleven, sometimes called junior, there is a period of slow growth, health and hardihood. Independence and self-assertion show at this age. The boy is full of daring. He likes climbing, running, fishing, exploring etc. Girls at this age are more mature than boys and develop more quickly in body as well as mind. The boy begins to like games that call for team play. Boys and girls now organize in separation from each other. Girls

now begin to have ideas of their own and the wise mother respects the daughters personality and invites her confidence so that by companionship rather than by domination she may lead her into clear sighted self-reliant womanhood.

Eleven to fourteen, the age of early adolescence is an age of hero-worship. Boys get their heroes from the world about them. Girls from reading history or fiction. Boys idealize men and there is an hunger for books and reading at this age. The child must learn to love the best. We must put the children in touch with the literary heritage of the race. Pick things they can comprehend also the best. Books of real insight into life and of general literary value, books of truth caught by imagination and felt within, will grip the minds and hearts of children at this age.

Habits are easily formed at this period, memory is a kind of habit and is best in these years. It is a good time for drill work in school for impressions are easy and connections quickly established.

The age of middle adolescence is almost the opposite to early adolescence, it is the time of rapid growth in weight and height. Girls in their teens at fourteen to seventeen are taller than boys. They are over awkward. The parts of the body do not grow at the same rate. The boy's voice breaks. Both are very sensitive and are often made more so by parents talking, in their presence, of the awkward age, or commenting on their personal appearance. It is now the boy begins to attain selfhood. He feels he has a power within which he should use as a man should. He has independence and self-assertion as well as feeling to go to work and it is hard to keep at school at this age. Boys begin at this time to pay attention to dress and girls are no longer considered tom-boys.

The sexes begin to be attracted. Few pass the age of sixteen without some little love affair. The boy is no longer credulous and demands proofs. He is not content with scattered bits of knowledge and wants to understand things.

The later adolescence age begins at the seventeenth birthday. At this stage the boys and girls may be thinking of supporting themselves or going from home to college.

It is now that the boy begins to select and concentrate his energies. Each pupil presents a separate problem in himself and must have his own work. They do not all have the same opportunities or the same work.

Some have only an elementary education and go to work at an early age and therefore mature more quickly. Others enter high school for a time before they begin work-day life. Some enter college or professional school. These will broaden and mature intellectually but they lack development in manual until they face the world to make a living.

The physical energy that before was needed for growth is now turned into activity. Athletics develop, baseball, football players, boxers and runners materialize.

Later adolescence is sometimes termed the "wild oats" period. Most boys and girls leave home and have their fling at this age. New temptations and the loneliness of being without friends and acquaintances except fellow-workmen begins to have an effect upon them.

This is the boys doubting time. The college students first vision of the truths of science calls into question his religious conceptions previously acquired and in this way his religion may be lost. The new freedom from parents permits him to stay from church and he soon forgets the little religion he has acquired.

Give the youth real responsibility. Compel him up to the actual work of social betterment and you need not work to make a man of him.

Power is every element of human development, physical, intellectual and moral. Adulthood should kindle the child's selfhood. All children were not intended to love books. Any system of training that tries to make children all alike must fail to develop the highest type of citizenship.

Boys may seem dunces at books but each should be kindled at the centre of his special power. The child as a creative being working out his own plans.

Adulthood should train the emotional nature of the child. Froebel was the first educator to

Froebel was the first educator to

garden for such training. Educators so long devoted their time to the study of knowledge instead of the study of the child that therefore all children were treated alike.

Then above all adulthood should develop the child's natural love of law and respect for law.

Children love law and have an hatred for tyranny. "Don't do this" "Don't do that"

He loves the law of a game and never disputes it. This respect for the law of a game should be developed by adulthood into respect for law in school, respect for law in the state, respect for law in the boys own life and above this respect for the laws of God. We should make the child self-conscious of strength, not of weakness. We should not call a child 'bad' but should watch for any act that is generous, brave kind or manly and should let him know with hearty appreciation that we are proud of him.

Thousands of young people go down yearly to moral and physical ruin because they are not taught the science of the body and health—that they were created for, the beauty and sacredness of their physical nature, the conservation of their life force and the terrible penalty attached to the violation of these laws.

Is not the knowledge of how to preserve the health and happiness of the race of more consequence than the teaching of dead languages?

Christ came to give power more abundantly and more abundant power is the reward for honest effort to achieve the vision of today.

One Woman On The Job

Now Teddy dear and do you hear
The news that's going round;
I am elected school trustee
Now I'll clear up the ground.

The day I was elected
I took after Mr. Bing;
Twas for that old long standing grudge,
But I did comb him then.

You remember how he looked Ted,
Sat there so tall and straight,
Was so much of a gentleman,
He would not retaliate.

Next came Mr. Stout the Scotchman
The great big burly bear;
Who said when woman held the Fort
That he would not be there.

We tackled him together, Ted,
We had an axe to grind,
His progress it was very slow,
Till this came to my mind.

This Scotchman has a little son,
And of nine at school,
He is a studious little chap,
And seldom breaks a rule.

But when a personal friend of mine
Did stand up straight and square
And told to all the people
That this little lad did swear.

'Twas then the rate-payers took it up
And firmly took a stand,
When they demanded fair play,
I had to take a stand.

We thought then my dear Teddy,
That we were down and out;
All on account of Mr. Bing
And the Scotchman Mr. Stout.

But our courage it revived, Ted,
We buckled to the fray,
T was you suggested that we take
Stouts Councilship away.

You did the best you could, Ted
And fairly takes you to task
From out the council chamber,
That would shame the Bards of old.

But Stout was re-elected
By acclamation strong,
Which shows he was in the right, Ted
And we were in the wrong.

Now back to home and baw! I'll go
And do the best I can,
If woman is so superior,
Why marry a—mere man.

Haig Tells How Victory Was Won

London. — Field Marshal Sir Douglas Haig in his final dispatch, just made public, presents a view in detail of the expansion and achievements of the British army, with many remarkable facts and figures. He treats the operations of the western front as a single continuous campaign, in which can be recognized the same general features and necessary stages that, between forces of approximately equal strength, have marked all the conclusive battles of history.

"The high water mark of our fighting strength in infantry," says the British commander, "was only reached after two and a half years of conflict, by which time heavy casualties had already been incurred. It was not until midsummer, 1916, that the artillery situation became even approximately adequate to the conduct of major operations."

During the Somme battle, artillery ammunition had to be watched with the greatest care. During 1917, ammunition was plentiful, but the gun situation caused anxiety. It was only in 1918 that artillery operations could be conducted without any limiting consideration beyond that of transport.

"The margin with which the German onrush of 1916 was stung was so narrow, and the subsequent struggle was so severe that the word 'miraculous' is hardly too strong a term to describe the recovery and ultimate victory of the allies."

"The breakdown of Russia in 1917 probably prolonged the war by a year, and the military situation in Italy in the autumn of 1917 necessitated the transfer of five British divisions to Italy at a time when their presence in France might have had far-reaching effects."

Sir Douglas records the interesting fact that more than half the British casualties in the fighting of 1918 occurred during the five months from March to July, when the allies were on the defensive.

"The rapid collapse of Germany's military powers in the latter half of 1918," he says, "was the logical outcome of the fighting of the previous two years. It would not have taken place but for that period of ceaseless attrition which used up the German reserves. It is in the great battles of 1916 and 1917 that all have to seek for the secret of our victory in 1918."

The value of cavalry in modern war is emphasized by Sir Douglas Haig, and, in discussing the value of mechanical contrivances such as tanks, he observes that, immense as their influence might have been, they could not by themselves decide a campaign. Their true role is to assist infantrymen by whose rifles and bayonets only can decisive victory be won.

The expansion of British personnel, artillery, ammunition, transport, railway construction and establishments of every kind in France, is dwelt upon by the field marshal. Regarding machine guns, the British equipment increased from one gun to 500 infantrymen in 1914 to one to twenty infantrymen in 1916. The 486 pieces of artillery, with which the British took the field in 1914, were represented at the date of the armistice by 6,437.

On the first days of the Somme battle of 1916, nearly 13,000 tons of

Hungary Can Pay Debts

Paris. — The mission to Hungary headed by General Jan Christian Smuts, has reported on the prospect of the payment by Hungary of her debts. The impression gained by the commission, the report stated, was that there might be some chance of adjustment through friendly negotiations. Otherwise, it was added, it was difficult to see any chance whatsoever.

artillery ammunition were fired by the British on the western front. On two days, September 20 and 21, 1917, 42,000 tons were expended, and in the three days of the crucial battle on September 27, 28 and 29, 1918, nearly 65,000 tons were fired by the British artillery.

Sir Douglas says that the feature of the war, which to the historian may well appear most noteworthy, is the creation of the new British army, which was successfully built up in the very midst of the war.

"The total of more than 327,000 German prisoners captured by us on the western front," says Sir Douglas, "is in striking contrast to the force of six divisions, comprising some 80,000 fighting men, with which we entered the war. That we should have been able to accomplish this stupendous task is due partly to the loyalty and devotion of our allies and to the splendid work of the royal navy, but mainly to the wonderful spirit of the British race in all parts of the world."

Veteran Tells of a Terrible Experience

Before He Found Relief in Dodd's Kidney Pills

Postmaster of Hereford. Points the Way to Health to Other Sufferers From Kidney and Bladder Trouble. Hereford, Calif., April 14. (Special.) — Mr. A. Peabody, the veteran postmaster here, is one of the many old people who claim to have received a new lease of life through the use of Dodd's Kidney Pills.

Mr. Peabody is in his 84th year, but wonderfully strong and active for one of his age. But he was not always thus. "For six years," he says, "in telling his story, 'I suffered from kidney and bladder trouble. I had those sharp, stinging, lightning pains through my muscles, even to my finger tips.'"

"In March, 1917, I was taken with a shaking chill and deadly pains through my abdomen, groin, and the small of my back. I was confined to my bed for three weeks, during which time I often had to get up as often as twenty or thirty times a day."

"I tried many remedies, but got little benefit till I tried Dodd's Kidney Pills. In three days I got relief, and three boxes cleared all the pains out of my system. I also rest much better at nights."

"I am always glad to tell other sufferers from kidney and bladder trouble what Dodd's Kidney Pills did for me."

Newest Proclamation

London. — The proclamation of a Soviet republic in Salzburg, Germany-Austria, is reported in an Amsterdam dispatch to the Central News.

MAY FEED RUSSIA

£10,000,000 Monthly Required For Carrying Out of Problem. London. — Herbert Hoover, director-general of the inter-allied relief organization, has requested Dr. Fridtjof Nansen, head of the Norwegian food commission to the United States, to become chief of an international commission to investigate the possibility of feeding Russia on condition of the cessation of hostilities in Russia.

The dispatch says that £10,000,000 monthly will be required for the carrying out of the problem.

Amsterdam. — The visit to Paris of the Dutch financier Van den Hoven and Ter Meulen, a local news agency says, has reference to the conclusion of a loan by neutral states to Germany of \$300,000,000. The loan is to be made under the supervision of the allies, and is for the purpose of restoring the economic situation in continental Europe. Swiss and Scandinavian bankers, it is added, are participating in the negotiations.

FARM LABOR SCARCE

Working Conditions and Wages Are Both Good

Winnipeg. — There is a shortage of farm labor in the province this spring, it was learned at the Dominion-provincial employment service bureau here. There is much more demand for farm help than there is response, and J. A. Bowman, head of the bureau, said that requests for men had been sent to Vancouver and other Pacific cities as well as to St. John and Halifax.

Working conditions on the farms here are good, Mr. Bowman announced, and farmers are paying \$60 and \$65 a month.

In British Soil

London. — Arrangements are being made, it is understood, for the removal of the body of Edith Cavell, the English nurse, executed by the Germans at Brussels in 1915, to this country. The interment of the body in British soil will be made the occasion of an extensive public ceremony.

Trouble in Egypt Takes Serious Turn

U. S. Credit to Belgium

Washington. — Credits of \$6,330,000 to the Czechoslovak republic and \$900,000 to Belgium were established by the treasury. The Belgian credit raised the total loans to the allies to \$9,016,229,000, and the total to Belgium to \$341,435,000.

Brazil and Britain Sign Treaty

Washington. — Advice from Rio Janeiro to the state department report that an arbitration treaty has been signed by Brazil and Great Britain.

London. — Reuters' learns that some apprehension is felt that the trouble in Egypt, which was fomented at the beginning entirely by Nationalist sentiment, may take a religious turn and that the native tribes may declare a holy war against the British empire.

There is reason to believe that the natives may have been affected by Turkish propagandists, who are in no way friendly towards Britain. Steps are being taken to deal with this possibility.

The official press bureau issued the following statement:

"General Allenby reports that a new ministry has been formed in Egypt with Hussin Ruchdi Pasha as president of the council."

"The provinces are quiet, but demonstrations by the peasants have occurred at some places. There were disturbances in parts of Cairo on April 9, the feature being hostility towards Armenians by parties of roughs."

Why Can't I Get To Sleep?

Thousands of people all over the country ask this question, but still continue to toss night after night on a sleepless bed, and it is impossible for them to get a full night's refreshing sleep.

Some constitutional disturbance, worry or disease is so debilitated and irritated the nervous system that it cannot be quietened except by the pernicious use of opiates or narcotics. Or again you have heart palpitation, and sensation of sinking, a feeling you are going to die, or perhaps you wake up in your sleep feeling as though you were about to choke or smother, and the only way you can get relief is to sit up in bed.

To all who suffer in this way, Milburn's Heart and Nerve Pills offer an inestimable boon. They bring back the much-needed night's rest by improving the tone of the nerves, strengthen the heart, enriching the blood and making the whole organization act in harmony—then you sleep as peaceful as a child.

Mrs. Jas. Eastman, 39 Leicester St., St. John, N.B., writes:—"At night I could not sleep. I had to sit up in bed, my heart beat very fast, when I walked up stairs I would get all out of breath. A friend recommended Milburn's Heart and Nerve Pills and after using two boxes, I can sleep all night and am not out of breath after walking."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The C. Milburn Co., Limited, Toronto, Ont.

London Will Observe Anzac Day. London. — On Anzac Day, April 25, there will be a triumphant march of Australian troops through London. The detachment will number 5,000 men, who will march from the West End, passing the Mansion House, where the Lord Mayor will take the salute.

Grain Steamers Will Use Rhine

Berlin. — An arrangement has been made with the allies by which merchant ships for Switzerland, coming from across the Atlantic, will pass down the Rhine to Strasbourg, or Basel. Consequently the next grain steamers for Switzerland will go to Antwerp.

THE BREAD LINE

Who's In the Bread Line?

There would be no bread lines in the big city if we who live in the country towns did our duty by one another. You and I can do our part to break that appalling condition in which men must either beg or starve. Remember: The bread line of the big city is recruited from the country. Our town has its duty to do. Our community can solve this problem. Industry should be plentiful in the country towns. But industry can't flourish here if we send our money to build up the big city. If all of us all the time spent all of our money in our home town there would be no bread lines in the big city. Each home town would then take care of its own. Let you and me do our part.

Troops Threatened Mutiny

American Infantry Refused to Fight Bolsheviks

Washington. — The war department has issued an official statement confirming Associated Press advices from Archangel that what amounted to a mutiny occurred among the American troops there on March 30. A company of infantry, the message stated, refused to entrain for the front and personally required to do so by Col. George Stewart, commanding the American contingent. Open threats were made of a general mutiny unless a definite statement from Washington insuring an early withdrawal was forthcoming.

New Use for Poison Gas

Paris. — Poison gas that worked such havoc during the war will be utilized for a very far different and beneficial purpose in the future, it is announced in scientific circles. Gabriel Bertrand, of the Pasteur Institute, informed the Academie of Sciences that he had discovered a method by which such gas might be supplied for the destruction of caterpillars and injurious larvae which had worked destruction of tree growth in the country districts during the past few years.

Must Pay For Hotel

Crown Owes Rent for Property Occupied for War Purposes

London. — The court of appeals, by a majority, has allowed the appeal of De Keyser's Hotel, London, in a test action against the crown, who had requisitioned the premises, for payment of rent and for compensation during nine months occupation by the crown. It was argued that the King was empowered to take a subject's property for the defence of the realm without payment. The matter of the rolls decided there was no prerogative right to seize his property for administrative purposes in connection with the defence of the realm without indemnifying the owners.

De Keyser's hotel claimed \$13,520 sterling for occupation.

Huns Cannot Pay For Food

Berlin. — The shortage of coal, owing to strikes, is given officially as the reason for Germany's inability to continue payments for entente food supplies now arriving, since coal was chiefly relied upon as a means to settle this indebtedness. The announcement adds that coal production continues to falter, preventing the manufacture of articles wanted abroad. "German economic life must collapse before autumn, and the food condition will be worse than ever."

Fall of Odessa Will Aid Bolsheviks

Paris. — The chief cause of anxiety in connection with the evacuation of Odessa by the allies and its occupation by the Bolsheviks lies in the fact that most fertile regions in southern Russia have fallen into the hands of the Bolshevik forces, giving them immense resources of grain, coal and minerals.

The reason for the allies' retirement was the constantly increasing menace of the Bolshevik soldiery against the allied garrison, which was able to maintain its supplies with greatest difficulty. The commander thereupon decided to withdraw his troops, numbering approximately 50,000. The troops retired to Rumania and Constantinople.

The situation in Rumania and Poland is far from reassuring, even with these additional troops to help form a cordon against the spread of Bolshevism. Both Rumanians and Poles require the largest measure of aid from the allies, providing them with food, military equipment and organization. It is regarded as essential to competent quarters that General Haller's Polish divisions should be

hurried eastward as soon as possible, for, otherwise, it is pointed out, there is a possibility of the formation of a great Bolshevik block consisting of Russians, Hungarians and Germans, which would be so powerful that immense forces would be required to resist it.

Statesmen of various countries gathered in Paris, discussed the Odessa question with considerable iniquity and it was explained that it would form the subject of discussion among the delegates to the peace conference.

It was remarked in semi-official circles that reports received from Russia previous to the evacuation of Odessa had shown Bolsheviks dying to be on the down grade, owing to the gradual exhaustion of funds and lack of supplies. But the acquisition of Odessa and surrounding districts by the Bolsheviks has given them a new lease of life and placed in their power the means to crush, temporarily at least, the rising strength of those groups who are contesting most vigorously the Bolshevik progress.

Ex-Kaiser Will Be Brought To Trial

Paris. — The responsibility of the German emperor for the war and the means for bringing him to trial by one of the allied governments, probably Belgium, had been definitely decided upon by the council of four. This follows the definite decision on the terms of reparations for war damages, whereby \$5,000,000,000 must be paid within the next two years, and an inter-allied commission assess the remaining damage for a period of thirty years, beginning May, 1921.

Thus, two of the great obstacles which stood in the path of the rapid attainment of peace have been removed, and the period of extreme tension over the inaction and the failure to secure tangible results is succeeded by revived confidence over the great advance towards a permanent settlement.

The council of four has reached an agreement on the Saar valley. The valley unchanged but accords to agreement leaves sovereignty over France free of duty sufficient coal for the Lorraine iron industry and to replace the production of the mines

destroyed in the Lens mining district, with the privilege to the Germans of restoring Lens mines and thus relieving the Saar valley of that charge.

This agreement removes one of the most difficult obstacles to the conclusion of peace.

While the tension has been greatly reduced, it is not entirely removed, as much depends on the continuation of progress with respect to the remaining obstacles, notably the Saar valley, the Rhine frontier, the Adriatic issue and a number of lesser issues which are still short of final agreement.

The agreement on responsibility for the war issue continued to have called for compromise between the divided reports presented by the commission, of which Secretary Lansing is chairman. There was a practical agreement on the general responsibility of the German emperor for bringing on the war, but division occurred as to whether it was feasible to bring him to justice before an international tribunal.

ACHES AND PAINS
QUICKLY RELIEVED

You'll find Sloan's Liniment softens the severe rheumatic ache

Put it on freely. Don't rub it in. Just let it penetrate naturally. What a sense of soothing relief soon follows! External aches, stiffness, soreness, cramped muscles, strained sinews, back "cricks"—those ailments can't fight off the relieving qualities of Sloan's Liniment. Clean, convenient, economical. Made in Canada. Ask any druggist for it.

Soldiers Home from Siberia

Victoria, B.C. — Seventy-eight officers and men of the Canadian forces in Siberia, returned to Canada on the Empress of Japan, which arrived here. All of the men were invalided home, unfit for further service. None of the men were seriously injured.

Seven of the returned men left the ship here, the rest going on to Vancouver where about 20 will stay, the others proceeding to their homes in the east.

The party is in charge of Lieut. French, who was formerly with the Northwest Mounted Police and was with the Bates expedition in the exploration to Baker Lake, in the northern wilds, in 1912.

Catarrh Cannot be Cured

With LOCAL APPLICATIONS, as they cannot reach the seat of the disease, Catarrh is a local disease, greatly influenced by constitutional conditions, and in order to cure it you must take an internal remedy. Hall's Catarrh Cure is taken internally and acts through the blood on the mucous surface of the system. Hall's Catarrh Cure was prescribed by one of the best physicians in this country for years. It is composed of some of the best tonic known combined with some of the best blood purifiers. The perfect combination of the ingredients in Hall's Catarrh Cure is what produces the wonderful results in catarrhal conditions. Send for testimonials.

J. J. CHENEY & Co., Props., Toledo, O. U.S. Druggists, Inc.

Hall's Catarrh Pills for constipation.

Fewer Settlers During March

Winnipeg — Immigration returns for the month of March, 1919, show a fall in the numbers of settlers admitted to Western Canada in comparison with the same month last year. During March this year, the total number of admissions into all ports of the western district, from Port Arthur to Kings Gate, was 3,227. Last year there were 4,041 in that month.

Effects coming in last month were valued at \$528,456. The wealth of the settlers this year was \$1,012,348, while last year it was \$1,741,422.

Signed at Same Desk

Berlin. — The agreement reached at Spa between the German and allied representatives regarding the use of the port of Danzig in connection with the return of Polish troops from France, was signed at the same desk at which Emperor William sat when he attached his name to the abdication agreement last fall, the Zeitung Am Mittag states.

We build our character by the bricks of habit that we pile up day by day. Each seems a little thing, but before we are aware of it, we have shaped the life we live in.

Get
Your Digestion
in Shape

Will Handle

Land Settlement

Soldier Settler Will Be Practically Outfitted by Board
Prince, Albert, Sask. — Soldiers and others here are greatly elated at the decision of the soldiers' land settlement board to establish an office here to handle land settlement for soldiers in northern Saskatchewan where mixed farming is carried on extensively. The decision of the Canadian Northern Railway to construct a line to run 25 miles north from the city is partly responsible for the decision as this road will open up a tract of country well adapted for soldier settlement. The board will interview soldier settlers as to their qualifications to go on the land. It will have an expert valuer, who will pass on the worth of the lands which soldiers may wish to purchase under the government aid scheme. The soldier settler will be practically outfitted by the board so far as farming is concerned, and will be protected in his purchases against cupidity on the part of private firms which might wish to take advantage of their inexperience as farmers and stockmen.

I was cured of Acute Bronchitis

Polish Premier Chided

Paris. — Ignace Jan Paderewski, premier of Poland, was the centre of a great demonstration, when he appeared in the diplomatic gallery of the chamber of deputies. The president of the chamber read a letter from the president of the Polish republic to Paderewski, transmitting the greetings of the Polish republic to France. M. Pichon, the foreign minister expressed feelingly the friendly sentiments of France. Then the deputies rose in a body and cheered heartily.

Piles Cured in 6 to 14 Days

Druggists refund money if PAZO OINTMENT fails to cure itching, blind, bleeding or protruding piles. Stops irritation, soothes and heals. You can get refund money at any drug store.

Sir John Cowan, British quarter-master general, is the head of a company which is seeking to develop the oil areas of Alberta.

Edmonton, Alta.—The construction of a \$20,000 public school at East Edmonton is planned by the school board.

SUFFERING CATS!

GIVE THIS MAN

THE GOLD MEDAL

Let folks step on your feet here after; wear shoes a size smaller; if you will wear shoes, you will send electric sparks of pain through you, according to this Cincinnati authority.

He says that a few drops of a drug called freezeone, applied directly upon a tender, aching corn, instantly relieves soreness, and soon the entire corn, root and all, lifts right out.

This drug is a sticky ether compound, but dries at once and simply shrivels up the corn without inflaming or even irritating the surrounding tissue.

It is claimed that a quarter of an ounce of freezeone obtained at any drug store will cost very little but is sufficient to remove every hard, or soft corn or callus from one's feet. Cut this especially if you are a woman reader who wears high heels.

Egyptians Form

Native Ministry

British Government Invites Deputation to Visit England

London. — Replying to a question in the house regarding the situation in Egypt Under Secretary Harmsworth stated that General Allenby's proclamation announced that as order had in great measure been restored, Egyptians wishing to leave the country would be free to do so.

It was understood that an Egyptian ministry was now being formed and that a deputation of ministers would visit England, in response to an invitation already twice given by the British government.

Replying to Mr. Wedgwood Benn, Mr. Harmsworth stated that he understood that General Allenby's proclamation included permission to come to England for persons originally debarred from that country.

A CHILD GETS CROSS, SICK AND FEVERISH WHEN CONSTIPATED

Look, Mother! If tongue is coated clean little liver and bowels.

If your little one's tongue is coated, it's a sure sign the stomach, liver and bowels need a gentle, thorough cleansing at once. When your child is cross, peevish, listless, pale, doesn't sleep, eat or act naturally, if breath is bad, stomach sour, system full of cold, throat sore, or if feverish, give a teaspoonful of "California Syrup of Figs," and in a few hours all the clogged-up, constipated waste, sour bile and undigested food will gently move out of the bowels, and you have a well, playful child again.

Sick children needn't be coaxed to take this harmless "fruit laxative." Millions of mothers keep it handy because they know its action on the stomach, liver and bowels is prompt and sure. They also know a little given today saves a sick child tomorrow.

Ask your druggist for a bottle of "California Syrup of Figs," which contains directions for babies, children of all ages and for grown-ups plainly on the bottle. Beware of counterfeiters sold here. Get the genuine made by "California Fig Syrup Company."

SUNDAY SCHOOL LESSON

LESSON FOR APRIL 20 — THE RISEN LORD

1. The Visit of the Women to the Sepulchre (28:1).

They came early to see the sepulchre. Their zeal and love exceeded that of even Peter, James and John. "Women were last at the cross and first at the tomb."

2. The Earthquake (28:2).

This occurred when the glorious angel descended to roll the stone away from the tomb. This work of the angel was not to allow Jesus to escape but to show that the tomb was empty. Christ needed not the help of a glorious angel, for he was raised up by his own power as the seal of his atoning work upon the cross. The open tomb and the angel sitting upon the stone with calm dignity is a picture of God's triumph over the devil, and the terror of the keepers is a sample of what all of Christ's enemies shall one day experience when he comes in glory to reign as king.

3. The Angel's Message to the Women (28:5-7).

1. "Fear not" (v. 5). While the enemies have occasion to fear, those who love the Lord receive good news that the empty tomb. The Lord will not long leave those who follow him in suspense and dread. The empty tomb puts an end to all doubts and fears. It is the proof that the question of sin is dealt with and that God is satisfied, carrying with it the assurance of eternal victory.

2. "Come see" (v. 6). The angel said that the Lord had risen, and invited the women to see the place where he lay.

3. "Come quickly" (v. 7). The women must see for themselves and then go to tell the message. Experience must precede testimony. They were to go quickly to the disciples with the blessed message, with the assurance that the Lord would go before and meet them.

4. Jesus Meets the Women (28:8-10).

The women rendered instant obedience to his bidding, leaving no word to the disciples. Jesus met them on the way. Those who have an experimental knowledge of Christ should speedily go to tell others of it. To all such the Lord will appear and bring joy.

5. What Christ's Resurrection Guarantees to Us (1 Cor. 15).

1. The integrity of the Scriptures (v. 3, 4). The Old Testament Scriptures told of the advent, death and resurrection of Christ. Christ's resurrection gave the seal of authentication to them. Christ rebuked the disciples as they went to Emmaus for their disbelief in the Scriptures concerning the resurrection (Luke 24:13-26).

2. The reality of the divine person (Rom. 1:4). Jesus claimed to be one with the Father. He predicted his coming forth from the dead (Matt. 16:21). He declared that no one could take his life from him. He had power to lay his life down and take it up again (John 10:15-18). He died because he would to do so. The life which he laid down must be resumed at the completion of his sacrificial work. His coming forth from the grave proved that he was what he had claimed to be.

3. The sufficiency of Christ's atoning sacrifice (Rom. 4:25). On the cross Christ exclaimed "It is finished." By the resurrection God declared to the universe that an adequate remedy for sin had been provided. The resurrection of Christ is God's certificate that an adequate sacrifice has been provided for sin.

4. Our life and immortality (1 Cor. 15:20). He is the first fruits of them that slept. "Because I live ye shall live also." The guarantee that man in the integrity of his being, spirit, soul and body shall live again is furnished us in Christ's death and resurrection.

Want Order Maintained

Paris. — At the latest session of the German cabinet council the government considered the possibility of making an appeal to the allied armies to maintain order in Germany, in the interest of the whole of Europe, the Zurich correspondent of Le Journal reports.

The newspaper L'Eclair understands that General Humbert, former commander of the French Third Army will be appointed "commander of the allied troops in central Europe."

"And you call yourself a lover of peace!" said Mr. Rafferty. "I do," answered Mr. Delan. "After intentionally droppin' the brick on Casey?"

"Yes, I've never known Casey to be so peaceful as he was just after I dropped 'the brick.'" — Washington Post.

There is no good and sufficient reason why you should mind your own business if other people will pay you more for minding theirs.

POLICE YOUR STABLE WITH SPOHN'S DISTEMPER COMPOUND

SPOHN'S stands alone, today, as the guardian of your stable against infections and contagious diseases. When applied to walls or partitions, SPOHN'S protects against DISTEMPER, PINK EYE, INFLUENZA, COUGHS and COLDS in any form. Its effectiveness in preventing these diseases among horses and mules makes it indispensable to the horseman, farmer, veterinarian or pleasure owner.

Berlin Bank Strike

Berlin. The organized and unorganized bank employees of Greater Berlin adopted by a large majority a resolution calling a general strike of bank workers all over Germany, unless the bank managements enter into negotiations with the national minister of labor for the purpose of fixing a definite wage schedule and adjusting other contested issues.

An Oil of Merit. — Dr. Thomas' Electric Oil is not a jungle of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the curative qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

Thrift Stamp Sales

Saskatoon. — Thrift stamp sales in Saskatoon totalled \$879.70 up to April 5. The committee in charge of the war savings stamps campaign reported rapidly growing interest in the part of citizens.

Emile Cottin Escapes Death

Paris. — President Poincaré has commuted to 10 years' imprisonment the death sentence imposed upon Emile Cottin, who, in an attempt to assassinate Premier Clemenceau on February 19 last, shot and severely wounded him. The commutation of sentence was on the recommendation of M. Clemenceau himself.

Minard's Liniment Cures Dandruff.

F. J. Anderson, president of the Winnipeg Grain Exchange, will go overseas to join Dr. Magill as representatives of the Exchange at the allied trade conference, where arrangements will be made for the handling of the 1919 crop.

Colds Cause Grip and Influenza

LAXATIVE BROMO QUININE Tablets remove the cause of colds, grip and influenza. — W. GROVE'S signature on the box. 30c.

There has been a heavy falling off in the production of spirits in Canada during the past two years.

A SPRING TONIC GREATLY INCREASES YOUR EFFICIENCY

Lay the Foundation of Good Health Now by Building Up Your Blood and Strengthening Your Nerves

The good old fashion of taking a tonic in the springtime, like most of the customs of our grandparents, is based upon sound common sense and good medicinal practice. No matter how mild the winter it is a trying time, even in the most favored climates, for those who are not in rugged physical health. Many men, women and children go through the winter on reserve strength they have stored up during the sunny, summer months, and grow increasingly pale as the spring days approach. A tonic for the blood and nerves at this time will do much for such people, by putting color in the cheeks and banishing that tired feeling that worries thousands at this season of the year.

You can't be energetic if your blood is thin and weak, or if your nerves are frayed or shattered. You cannot complete with others if you can't get refreshing sleep at night, or if you are losing weight. You need a tonic at this time to add to your efficiency now, as well as to save you from suffering later on. And in all the realm of medicine there is no safer or better tonic than Dr. Williams' Pink Pills for Pale People. These pills make new rich, red blood, which circulates through every portion of the body, strengthening jaded nerves and run-down organs, and bringing a feeling of new strength and energy to weak, easily tired, despondent men, women and children.

CURED BILIOUS HEADACHES

Mr. D. C. McClure, Hefley Creek, B.C., says: "I have never felt so well as I do since taking Dr. Williams' Pink Pills. When I began their use I was very much run down. I had no color, no appetite, could not go up stairs without stopping to rest on the way. I had frequent headaches and a feeling of despondency. I took Pink Pills regularly for about eight weeks and while I felt a benefit from them I also felt a great deal from bilious headaches. I got a half dozen boxes of Dr. Williams' Pink Pills, and after taking them I felt like a new man. The last attitude from which I suffered had disappeared, I had a better appetite, and was in every way stronger and better than before I began the use of this medicine. Almost everyone needs a tonic in the spring, and for this purpose I can strongly advise Dr. Williams' Pink Pills."

NEVER FELT SO WELL

Mrs. Beatrice Bishop, Fendale, N. B., says: "I have never felt so well as I do since taking Dr. Williams' Pink Pills. When I began their use I was very much run down. I had no color, no appetite, could not go up stairs without stopping to rest on the way. I had frequent headaches and a feeling of despondency. I took Pink Pills regularly for about eight weeks and while I felt a benefit from them I also felt a great deal from bilious headaches. I got a half dozen boxes of Dr. Williams' Pink Pills, and after taking them I felt like a new man. The last attitude from which I suffered had disappeared, I had a better appetite, and was in every way stronger and better than before I began the use of this medicine. Almost everyone needs a tonic in the spring, and for this purpose I can strongly advise Dr. Williams' Pink Pills."

HAS A BETTER APPETITE

Mrs. M. D. MacLeod, Caledonia, P.E.I., says: "I have used Dr. Williams' Pink Pills and I was a spring medicine with satisfactory results. Before I began their use I was subject to weak spells, but these have now disappeared. I find that my appetite is better, and I have every confidence in your pills as a blood builder."

STRONG AND WELL AGAIN

Mr. H. H. McKelvey, Orono, Ont., says: "My experience with Dr. Williams' Pink Pills has been of the most favorable kind. At the time I began their use I was so weak and run down that I could hardly go about. My stomach was also out of order and the food I took did not seem to do me a bit of good. Then Dr. Williams' Pink Pills came to my rescue, and under their use my stomach grew better, my general health improved, and I was as healthy and vigorous a man as I had ever been. Dr. Williams' Pink Pills, with the use of Finkels as a laxative when needed, is now our family medicine, and we would not be without them."

BUILD UP YOUR BLOOD

The purpose of Dr. Williams' Pink Pills is to build up the blood. They do this one thing and they do it well. They are, for this reason, an invaluable remedy in diseases arising from bad or deficient blood, such as anaemia, rheumatism, neuritis, pains in the back or side and the after effects of influenza or fevers. If you are suffering from any troubles due to weak, watery blood, shrunken nerves, a fair use of these pills will restore you to full health and strength. Dr. Williams' Pink Pills are sold by all medicine dealers or will be sent by mail, post paid, at 50c a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

The Jarrow Page

JARROW

Harry Meakins and Charlie White are putting in the crop on the A. Brown place east of town.

We wish to welcome R.G. Brown to our neighborhood who has just bought Mr. Greene's place and is moving in soon.

Everyone was smiling on Saturday after the rain. Things look much brighter for everyone this week.

Fred Hardy is hauling posts to the Imperial Lumber Co., from the south and they are selling them as fast as they can get them.

The Jarrow Auto Supply reports business good with them since they opened up here. No doubt the undertaking will be a decided success.

Nils Lindholm was to Edmonton this week but did not like the town so he came home again.

The canvassers for the Memorial park fund are thinking of starting a drive for subscriptions soon.

Albert Firkus is letting contracts for road work in Division 1 this week.

It will pay you to read the ads on the Jarrow page.

A young son of Mr. Brown was seriously hurt by playing with explosive caps a week or so ago. We are glad to report that he is improving.

D.T. Green is busy loading his car of settles effects. We do not like to see Mr. Green go away but what is our loss will be some one else's gain.

There is some talk of the Sports Committee for the UFA day putting on a bucking contest. We hasten to mention that none of the committee will actually take part in the contest but they will endeavor to get someone to fill this item on the program. We hope no one gets hurt.

The Jarrow Sunday school are holding their annual picnic to-day, Tuesday, and a good crowd is in attendance. A genuine effort is being made to give the little ones a good time and an amateur ball game is in progress. We will try and give more particulars of this event next week.

J.D. Manners went to Edmonton last week in his car and took with him a considerable quantity of perishable produce which he had bought in the store. He reports the roads punk coming home. No doubt no one believed anything we said about the roads two weeks ago but if we get a wet year they will change their mind and then we can say "I told you so."

Our "Receipt for Riches" continued last week. Read the Jarrow page.

"Now is the time to sell stock in your company. You should first sell it to the individual members in the company at about 25 cents on the dollar. Then these individual members can turn around and sell it to the public, including manufacturers, railwaymen, college professors, and school teachers, at about 200 cents on the dollar. This, of course, you see, will help the members of your company to make a lot of money, and as your business will be very profitable, all the stock-holders will make money also. You can pay out part of your profits in cash, and put the balance to "reserve" for rainy days.

In case any farmers are inclined to be independent and to sell their produce at a "living price," you could get together and undersell them until they are pretty nearly out of business. Then go to the bank and have them put pressure on these individual farmers, and they will soon be compelled to quit. You will thus be able to buy their farms at a very low price, and either shut them down or use them according as is most profitable. By reducing the number of farms you can give the public a better service at reduced cost."

LIBERAL CONVENTION AT OTTAWA

A National Liberal Convention is to be held in Ottawa on August 5th, 6th and 7th. The convention has been called by the Liberal representatives in the House of Commons, under the leadership of D.D. McKenzie, M.P. for North Cape Breton. The purpose is threefold:

1. To make a declaration of Liberal principles as applied to present conditions throughout Canada.

2. To establish a nation-wide party organization.

3. To select a party leader in the place of the late Right Honorable Sir Wilfrid Laurier.

The convention will comprise three delegates from each federal electoral district throughout the Dominion elected at a district convention.

At a meeting of the Alberta Liberal executive held in Calgary on May 12th it was decided that the district conventions for the election of delegates to the National Convention should be held as follows:

On Thursday, June 5th: Lethbridge at Lethbridge.

MacLeod at MacLeod.

Medicine Hat at Medicine Hat.

Red Deer at Red Deer.

East Calgary at Calgary.

West Calgary at Calgary.

On Thursday, June 12th: Bow River at Calgary.

Battle River at Vermilion.

Strathcona at Wetaskiwin.

Victoria at Tofield.

East Edmonton at Edmonton.

West Edmonton at Edmonton.

Under the constitution of the Liberal Association of Alberta the district conventions shall be made up of two delegates from each polling subdivision in the electoral district duly elected at a primary to be held in the polling subdivision. The dates for the primaries to be fixed by the convenor of the district convention. No proxies are allowed.

Delegates elected at the primaries must have the certificate of their selection from the chairman and secretary of the primary in order to be seated in the convention. Women are eligible as voters, officers and delegates.

The defeated candidates at the 1917 election, or someone appointed by them, are convenors of the several district conventions. In Victoria constituency, Chas. Gordon, Vegreville, assistant secretary of the Provincial Liberal Association, is convenor. In Battle River constituency, W.C. Robinson, of Vermilion is convenor. In Strathcona, A.T. Mode, Edmonton; in Red Deer, W. F. Puffer, Lacombe; in East Edmonton, A.E. May, Edmonton, and in West Edmonton, Frank Oliver, Edmonton.

Liberals who desire to take part in the district conventions may secure all information by communicating with the convenors for the several districts.

A husband and father who stayed at home half a day with the children the other day while his wife went up town to do some shopping learned several things that he had never known before. In fact the afternoon's happenings were so impressive that he lost no time in advertising for a nurse girl and a governess. Here are his experiences as he presented them in tabloid form: Opened door for children, 108 times, closed it after them 108 times, tied children's shoes, 16 times, number of stories read to them 21, stopped children playing the piano 19 times, smoke rings blown to amuse them 98, arbitrated children's quarrels 11 times, pulled carriage out 28 times, bro't doll carriage in 28 times, mended kiddie car, 5 times, cautioned children about crossing street 66 times, children crossed street 66 times, paddlers issued to children, 37, slices of bread and butter served 12, drinks of water served, 9, refused to buy candy, 78 times, questions relating to Santa Claus dodged 1501

To Prevent Soil Drifting.

To destroy weeds in the summer fallow on the prairie without leaving the soil in condition to drift readily a new style of cultivator has been devised. This implement, which has a place especially on the dry land farm, is designed to cut off weeds about three inches below the surface of the ground without breaking up the surface soil. Pamphlet No. 28 of the Dominion Experimental Farms written by Mr. W.H. Fairfield, Superintendent of

the Experimental Station at Lethbridge and obtainable from the Publications Branch, Department of Agriculture at Ottawa, explains the construction, by illustration and text, of this simple implement. The implement is eight feet wide and requires four horses for its operation. It may be constructed up to twelve or even sixteen feet when from six to eight horses are needed to draw it.

Spoiled Cakes Cost Money

Flour, eggs, milk, butter and sugar are high in price. A spoiled cake or batch of biscuits costs money.

To make sure of baking success use pure, strong, double-acting

EGG-O Baking Powder

The heavy Government Standard flours need the strength of Egg-O to make a light baking. Egg-O has two actions. It rises in the mixing bowl when cold water or milk is added and continues to rise in the heat of the oven, thus making a light cake doubly certain.

You can use sweet milk, sour milk, buttermilk or water with Egg-O—a different and better baking powder.
